PRESS RELEASE.

3S strengthens its international structure and will operate as a group in the future.

Hausham, 05 May 2026 – The security and high-value printing company 3S is taking the next step in its strategic development: going forward, the company will operate under the name “3S Group.” This addition reflects the company’s established international structure and makes it more visible externally.

Under the leadership of CEO Marco Castiglioni, 3S has been systematically evolving into an internationally aligned organization. Existing and future subsidiaries are now even more closely integrated, creating a stronger foundation for global growth.

By introducing “Group” into its name, 3S underlines its commitment to strengthening collaboration across locations, leveraging synergies more effectively, and further advancing its international orientation.

“The transition to a group structure is not a short-term move, but a consistent step in our strategic roadmap,” says Marco Castiglioni. “We planned this development from the outset, implemented it deliberately, and are now making it visible to the outside world.”

The company’s mission remains unchanged: to act as a trusted partner in security and value-added printing, combining efficiency with reliability and long-term partnerships. Day-to-day operations and collaboration with customers and partners continue as usual, while the new name provides greater transparency about the organization’s structure.

About 3S Group:
Founded in 1898 as the security and high-value printing company Schwarz, 3S employs 44 people at its site in Hausham at lake Schliersee.

The brand name 3S stands for three core pillars:
Secure: ensuring trust and security across the entire value chain.
System: delivering integrated solutions that connect processes and increase efficiency.
Solutions: providing tailored and intelligent responses to customer needs.

Today, the company exports to more than 30 countries and is internationally recognized as a specialist in security and system solutions. 3S is certified according to Intergraf ISO 14298:2021 and holds numerous additional international quality certifications.

Its portfolio includes ID cards, integrated cards, vouchers, checks, security labels, certification seals, tax stamps, passports, postage stamps, certificates, tickets, and other specialized printed products. Increasingly, these are complemented by digital solutions such as RFID-based applications, smart vignettes, and technologies for connected mobility and smart city systems.
